

# The Electrified World

*Balancing your inner and outer world*

I offer accurate economical testing & resolutions for your home, office or business.

## \$350\* EMF Testing Service

- AC Magnetic Fields
  - Low Frequency Polluters: dimmer switches, power lines, electrical wiring, and transformers.
  - High Frequency Polluters: energy efficient appliances, fluorescent & compact fluorescent lighting, dimmer switches, TV and computer monitors, razor, hairdryers, lamp & alarm clock on nightstand, and wrist watch.
- AC Electric Fields –
  - Electric fields are created by the electricity moving throughout the home, office or business in the walls, water pipes or other means of travel.
  - Electric fields can reach up to 6 feet from walls, creating electromagnetic smog.
- Radio Frequency (RF)
  - Known as wireless or microwave radiation. Electromagnetic radiation – frequency range is 3 KHz – 300GHz
  - Detection for wireless devices, hidden cameras, cell phone, and electrical meters.
- Dirty Electricity
  - These frequencies piggyback on the electrical wiring and radiate into your living environment.
- Geopathic Stress
  - Underground Curry Lines, faults and water streams, can cause sleep and health issues.
- Mitigation Solutions
  - Recommend solutions for support of findings.

\*Price includes single home up to 2,500sf and two cars. Additional travel fee maybe applied for outside King County.
